

Sophi: The Phaco Platform Built for OBS.

Sophi combines a wireless, cable-free design, battery-powered operation, and a compact footprint designed to support office-based surgery workflows.

Why Sophi Fits Your Suite

- **Truly wireless:** Battery-powered and cable-free system including the Bluetooth-enabled foot pedal
- **Compact footprint:** Sized and weighted for the space you have, not the space an ASC has
- **Video-over-Wi-Fi:** Integrated live microscope viewing on the interface, without fixed AV
- **Simple, intuitive interface:** Designed to support efficient setup and workflow in office-based surgery environments
- **Triple pump fluidics:** Active IOP control combined with flow-controlled peristaltic and Clean Venturi vacuum-based aspiration supports chamber stability and surgical control.

Talk to your Rayner equipment representative about bringing Sophi into your suite.

Sophi phacoemulsification system. For use by qualified ophthalmic surgeons. Refer to the Instructions for Use for complete indications, contraindications, warnings and precautions. Not all products or configurations described are available in the United States. Performance and workflow statements are based on system design and internal testing. Actual results may vary depending on surgical technique, case complexity, and operating room workflow.
