

Adding patients

To access RayPRO, visit: raypro.rayner.com

1

- If using a Surgeon account: Click '**Add a Surgery**' from the dashboard.
- If using a Nurse account: Click '**Add surgery**' from the left menu.

2

- Type the patient's email address or patient ID, then click '**SEARCH**'.
- **Note:** If a patient profile with a matching Email or Patient ID is found then the next screen will be pre-populated with their personal details.

3

- Enter the patient's personal details:
1. **Email** and **Language Spoken** are mandatory.
 2. A patient must consent to their personal data being stored and processed by RayPRO. Obtaining patient consent is the responsibility of the surgeon or nurse. When consent has been obtained, complete the consent tick box and click '**ADD SURGERY DETAILS**'.

4

- Enter the surgery details:
1. If using a Nurse account, select the **Surgeon** from the dropdown.
 2. **Hospital** and **Surgery Date** are mandatory.
 3. **Operated Eyes** is mandatory:
 1. Select the **IOL Model**
 2. Select the **IOL Power**

5

Click **CONFIRM**. A pop-up will appear confirming that the patient and surgery have been added and the questionnaires are scheduled.

Questionnaires after surgery:

- **1 week**
- **3 months**
- **1 year**
- **2 years**
- **3 years**
